GREATER BOLAND

Compliance in the South African Construction Industry is becoming increasingly complex and costly. But which requirements are legally legislated, which are professional obligations, which competencies are mandatory and which services are simply nice to have?

This practical webinar brings together Regulators, Professional Bodies, Industry Experts and Specialist Service Providers to unpack the changing compliance landscape and help construction professionals understand what is required, why it matters, and how to remain compliant without unnecessary cost or duplication.

INTRODUCTION

A practical CPD webinar for Clients, Employers, Construction Professionals, CHS Agents, CHS Managers, CHS Officers, Contractors, Competent Persons including Designers and Engineers, Artisans, Occupational Health Nurses (SASOHN), OMP's (Medical Doctors), Occupational Hygienists (AIA's) and Working at Heights Practitioners.

KEY DISCUSSION AREAS

- NEW OHH Regulations and integration into existing OHS Management
- Medical Surveillance VS Medical Examinations
- Employment contracts and South African Labour Law
- Artisan Development and SMME Supplier Development
- Cutting the Cost of Compliance with AI
- Women's participation, leadership and opportunities in Construction and Engineering
