

APPLICATION FOR MEMBERSHIP OF THE SAFETY FIRST ASSOCIATION

The Safety First Association is the oldest safety association in Africa and the third oldest worldwide. It was created in 1932 by Sir Ernest Oppenheimer and the Mayor of Johannesburg when they realized the need to promote the creation of a healthy and safe environment in the workplace, at home, in schools and on the roads.

Since then, the Association has continued to promote safety and health through literature, such as its official journal African OS&H, posters, calendars, informative books, induction booklets and videos.

African OS&H continues to keep its readers up-to-date with what is happening in the industry. It is published 6 times a year and is the official mouthpiece of several professional associations:

- SAIOH - Southern African Institute for Occupational Hygiene.
- SAPEMA - Southern African Protective Equipment Marketing Association.
- ACHASM - Association of Construction Health and Safety Management.
- SAQCC GAS - South African Qualification and Certification Committee for Gas.
- LPGSASA - Liquefied Petroleum Gas Safety Association of Southern Africa.
- SACGA - South African Compressed Gases Association.
- SARACCA - South African Refrigeration and Air Conditioning Contractors.
- SAGA - Southern African Gas Association.
- ESSA – Ergonomics Society of South Africa
- OSHAfrica – Occupational Safety and Health Africa

The 6th issue is our popular annual Directory of Safety Products and Services.
